Environmental Management and Food Safety Management System Policy

- To provide the effective usage of the natural sources in our establishment and to minimize any kind of waste material resulting from source consumption, to decompose them where they are used and to prevent the possible dangers before giving harm to the environment.
- To increase the quality of service and guest satisfaction, providing safety food and beverages according to the food safety management criterias from buying from the suppliers to the consumption of our guests and employees.
- To obey the relevant law and regulations, to apply the E.M.S. and F.S.M.S. to improve constantly.
- To contribute to the inoculation process of environment and food safety conciousness to our guests, tour operators, suppliers and the community.
- To carry out our policy as our life style, to keep our activities steady, and keep them open to the community.
